Re: DT 02-111, Verizon New Hampshire
Investigation into Verizon T1 Service
Extension of Superpath T1 Promotion

Dear Ms Thorne:

On December 1, 2003, Verizon New Hampshire (Verizon) initiated a limited time promotional offering for Superpath T1 service in New Hampshire. The promotion was part of a stipulation in this docket and approved by the Commission by Order No. 24,213 (September 25, 2003). The stipulation called for Verizon to provide Commission Staff (Staff) with information at the midway point and end of the trial in order to allow Staff to determine whether other T1 services would benefit from a similar promotion.

Staff has advised the Commission that since the required mid-promotion reporting was delayed, Staff and Verizon have agreed to an extension of the stipulation, making the Superpath promotion available for a total of fifteen months.

Accordingly, the Commission extends the Verizon Superpath T1 Promotion to February 28, 2005, and requests that Verizon file the end-of-promotion data no later than April 1, 2005.

Very truly yours,

Debra A. Howland
Executive Director and Secretary
